

Application No.: 10/709,273 : Confirmation No.: 1671
Filing Date: 04/26/2004 : Examiner: Becker, D.
Inventor: COHN, Robert : Attorney Docket No.: 72-002
Title: Apparatus And Method For Barrier Submersion Cooking

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

OFFICE ACTION (FINAL) RESPONSE

Filed Electronically – EFS-Web

Dear Sir:

Applicant hereby files the following response to the Final Office Action mailed April 30, 2008. The following amendments and remarks are respectfully submitted.

Double Patenting

The amended claims require a vessel, and in particular a pouch, made of metal. Claims 14-15 of copending Application No. 11/830,957 require a plastic pouch. It would not be obvious to substitute a plastic pouch for a metal one. Applicant respectfully requests the rejection be withdrawn.

A terminal disclaimer has been filed herewith. If the examiner withdraws the rejection, the disclaimer becomes moot.
